I am working on it. We are having some difficulty in getting up to date info in the GIS format. A companion issue is the need to review it which is presenting some technical challenges. My goal is to have something this week which is what I believe you requested; likewise if we get it sooner I will send it to you.

Thanks,

Mack

Good Morning Mack,

I was just wanting to check on the status of getting the GIS data. Do you know when we will be able to get it?

Thanks!

Diana

Diana, Susan,

I have been assured that all future emails to me with EPA anywhere in them will be delivered to me. That said, if you send me an email and I don't respond relatively quickly please feel free to call my cell. 972-897-1807

Thanks,
Mack

Good morning Mack,

Here is the email I sent you yesterday.

Thanks for all your help,

Diana

Hello Mack,

Thank you so much for speaking with me over the phone today.

We would like to look at the plans for the area that the city is purchasing from Exide, including the facility itself.

If we could also get the plans for Grand Park, that would be great.

If we could get the data at your earliest convenience, I would really appreciate it!

Thanks for all your help,

Diana

Hello Mr. Borchardt,

I hope your travels went well.

I'm not sure if you received my answer to your question, since I could not find it in my sent mail.
I'm so sorry if you did not!

We are wanting to see what the city's plans are surrounding the Exide facility. I have seen some from 2006 on your website's interactive maps feature. I was wondering if this is the most current.

Also, I would really like to map the future landuse plans with the Exide facility boundaries. To do this, I would need the data in a form that I could pull it into ArcGIS (shapefiles or feature classes).

I hope this all makes sense. Please feel free to call or email if you have additional questions.

If I could get the data sometime next week, that would be great. No worries if that is not possible.

Thank you so much for your help with this,

Diana

Ms. Greiner,

While I will be on a plane for a significant amount of time tomorrow, if you have any additional insight it might help with your request. In reviewing your request tonight, it came to mind that there might not be any specific plans, or concepts, on paper that would answer your question. If that is the case would you be able to give me some idea what you are trying to determine and it might speed getting some info.

That's just a thought and I realize you may not be able to further define your needs at this time.

Thanks,
Mack

Ms. Greiner,

I am happy to be the point of contact for you. I am traveling today and the remainder of this week. Do you have an estimated timeline for getting this info? I will make every effort to get an answer within your time frame.

My office is 972-292-5127 and my cell is 972-897-1807. Please use the cell this week and any other time you choose.

Thanks,
Mack

Good Morning Mr. Borchardt,

I am looking for a GIS dataset containing the city's plans for redevelopment, and Susan Olson referred me to you for help. EPA is looking at the area around the Exide facility.

Could you help me obtain this information, or guide me to the person that can?

Thank you,

Diana
